

SELECTPaper/ PAPER BUBBLE

PANGOLINPLUS
SUPPORT CUSTOM/MULTIPLE BUBBLE TYPES

◆ PRODUCT INTRODUCTION

- The new paper bubble machine is an innovative packaging solution, mainly used for the production of concave-convex packaging cushioning materials from base paper or roll paper, and is a paper-based substitute for traditional bubble filling.

- Widely used in carton filling, wrapping, padding, and cushioning, due to the large bubble shape on the surface, it can achieve a high degree of product protection and efficient material usage. Paper bubble wrap is a new type of packaging solution, mainly used to produce kraft paper bubbles with concave-convex surfaces to replace traditional plastic and bubble packaging, and can be used in food, fruit packaging, and daily canned, fragile items, valuables, large industrial supplies, etc., to achieve multi-functional use across industries.

◆ ADVANTAGE

- Easy To Operate
- Eco-friendly Bubble Paper
- Low Cost But Versatile
- Make Packaging Simpler

- Also, using a paper bubble machine can make the packaging more beautiful and provide a high-quality unboxing experience. And paper bubble is 100% recyclable, so they won't put pressure on the environment.
- Compared with other large packaging machines, it can reduce transportation costs and lower investment costs, also is a fast, safe, beautiful, sustainable, and attractive way to pack fragile and valuable items.

<i>SELECTPaper/PANGOLIN</i>		<i>SELECTPaper/PANGOLIN PLUS</i>
Model	SelectPaper/Pangolin	SelectPaper/Pangolin Plus
Size	550*430*270mm	750*500*270mm
Suitable Paper	Fan-fold paper, roll paper	
Gram Weight	80-160g, standard weight 80g, 250m/roll	
Pressure Bubble Size	Diameter 12mm, height 5mm	
Extended function	External pedals and a slide knife can be added Parameter	
Speed	10m/min	
Paper Width	300mm	300-500mm
Net Weight	25KG	40KG
Power	100W	150W
Voltage	110V-220V
